First Forum on Green Engineering of the Association of Sino-Russian Technical Universities (ASRTU)

● ORGANIZING COMMITTEE

- Association of Sino-Russian Technical Universities (ASRTU)
- Irkutsk National Research Technical University, Irkutsk, Russia
- Harbin Institute of Technology, Harbin, People's Republic of China
- Bauman Moscow State Technical University, Moscow, Russia

● GENERAL INFORMATION

The two leading powers, Russia and China, currently have close ties, and both countries are developing intensively. In connection with the active socio-economic development, special attention should be paid to sustainable development, including environmental aspects of techno-sphere safety, energy-efficient technologies, reliability and safety of buildings, transport infrastructure, waste management etc.

The ASRTU First Forum on Green Engineering is intended to further expand the exchange between Russian and Chinese colleagues for cooperation and development in the fields of green engineering, as well as stimulate masters' and Ph.D. students to participate in scientific innovation activities in construction and related sectors, as well as to provide an environment for young researchers and engineers for consolidation and international cooperation.

The event will be held on September 15th - 18th, 2019 in Irkutsk, Russia.
